

Landing Page V3 Feedback

The 'find out more' (with down arrow) needs to scroll down further, so that the 'What We Offer' title is right at the top. The three cards are then in full view (at least on my screen).

'What We Offer' section - Development => Develop
(Design, Develop, Commission)

Please can we have an autoscroll on the 'It Ain't All Robots' section carousel?
(For instance like every 2 or 3 seconds?)

Can we make it scroll on click anywhere on the card?
